DARP project

DARP project

ADS-B

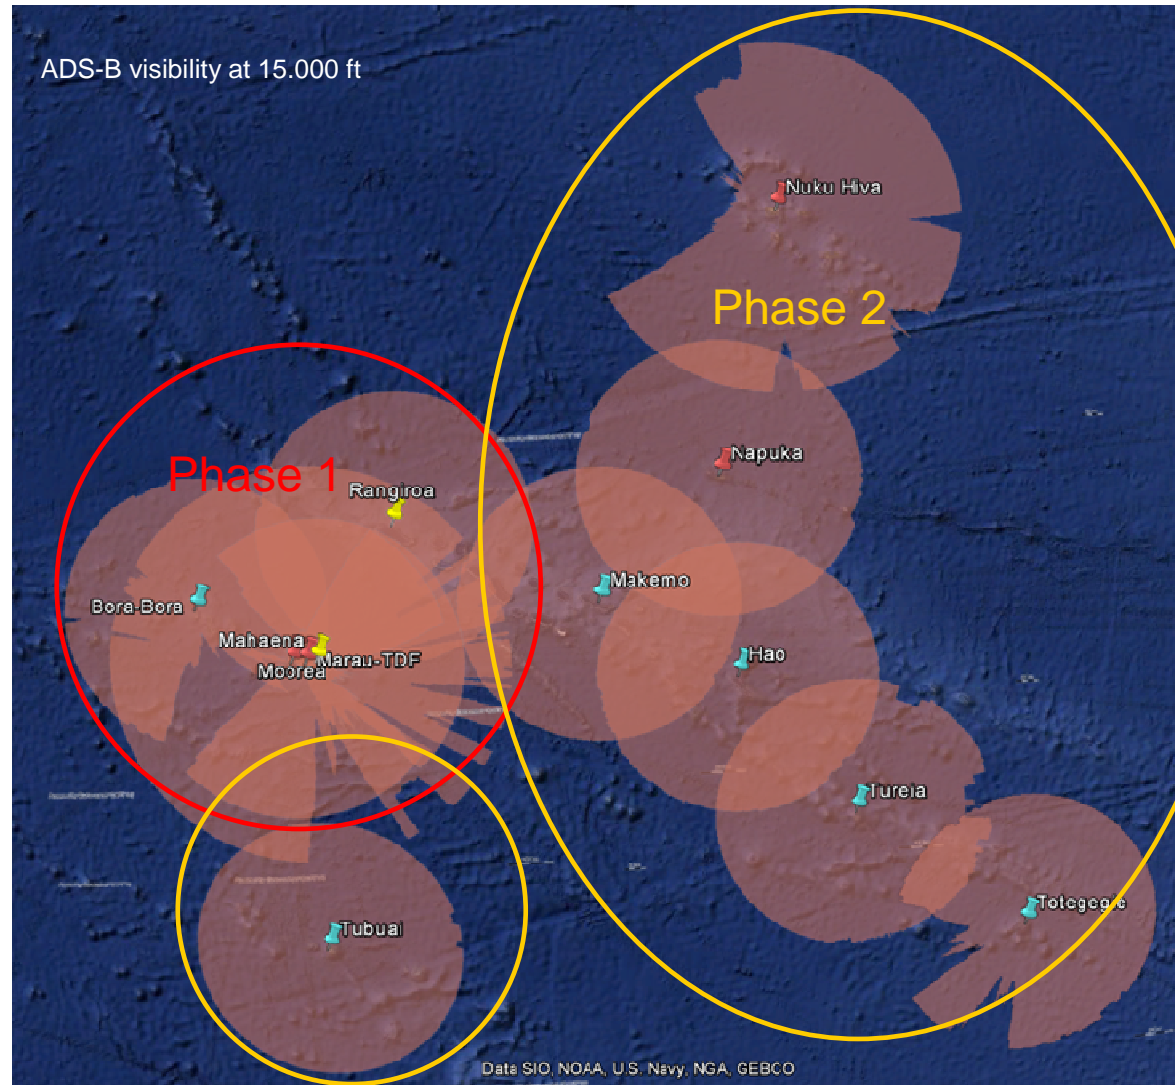

ADS-B implementation / VHF coverage extension

- Part of the modernization plan of French overseas territories (New Caledonia, French Guiana, Reunion Island)
- Extension of real time surveillance of domestic traffic to provide “radar like” separation made possible with associated VHF extension
- Radar spare first and forward de-commissioning
- Conformance to ICAO APAC strategy plan regarding surveillance

ADS-B implementation plan

1st phase :
under current
VHF coverage

2nd phase :
associated to
VHF extension

ADS-B : Schedule

- **2016 areas of work :**
 1. Equipage mandatory
 2. CONOPS
 3. Safety assessment

- **2017 : phase 1 installation, ADS-B data analysis, safety cases**

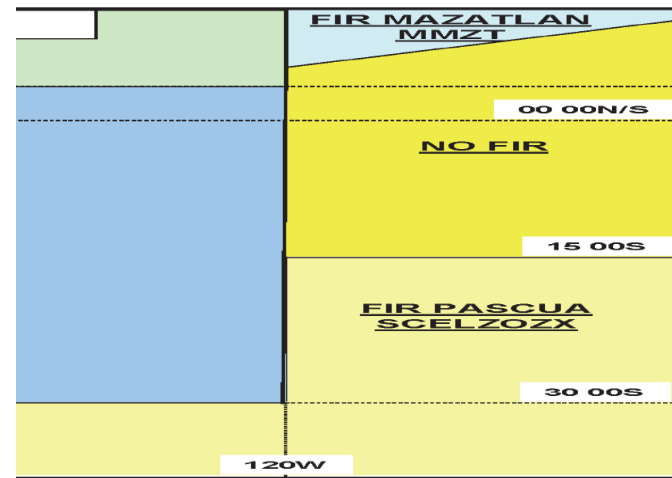

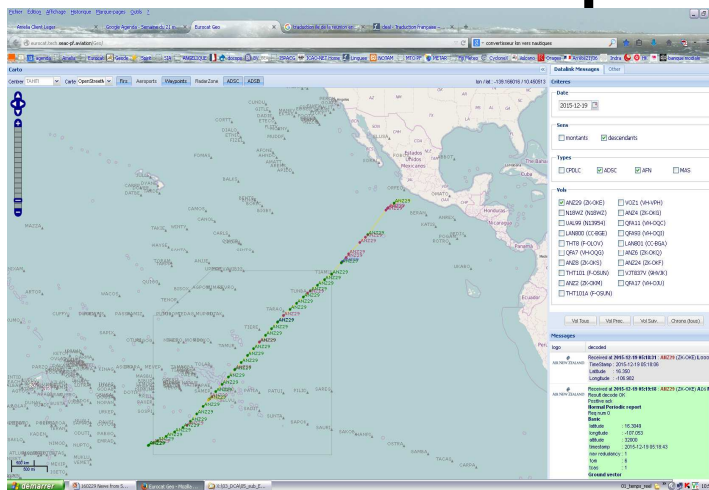

- **Commissioning of separation based on ADS-B expected mid-2018 regarding CONOPS options.**

Other issues

❑ AIDC with Chile

❑ HF: SELCAL check?

❑ NO FIR issue : specific deal for ANZ 29
